

The Womble Trail & Friends of the Ouachita Trail

In mid-2017, FoOT's Board of Directors voted to take in the Womble Trail to go along with the Ouachita Trail. The mission of improving and maintaining the OT has been extended to the Womble Trail.

The Womble Trail is the third longest in Arkansas 39.5 miles. It was originally built as part of the Ouachita Trail then became the Womble. On the north end you actually hike 1.5 miles on the OT from the Muddy Creek Trailhead until you reach the Womble intersection with the OT at mile marker 117.2. The southern terminus is North Fork Lake.

The Womble has been given Epic status by IMBA (International Mountain Biking Association). It is also an excellent hiking trail. Trail presents great mountain views and scenery along the Ouachita River.

FoOT primary focus has been the Ouachita Trail but is expanding its scope as possible to help with other trails in the Ouachita Mountains. FoOT's recently established Legacy Fund includes all of the trails of the Ouachita's with focus on the OT.

More trail means more opportunities for trail work. Please contact FoOT if you would like to adopt a section of the Womble. FoOT now has 260 miles of trail to maintain, so help is always needed and appreciated.

Thanks to all our volunteers and adopters for their effort!
